

Lighter.
Stronger.
Affordable.

BlackMAXX

Composite HD Handle

THE ONLY American Made Handle for the Pneumatic Tank Industry

At BTI, we've got a handle on your next Handle.

- The standard BlackMAXX Composite HD Handle is 43% lighter than an industry standard stamped steel handle
- The BlackMAXX handle is 25% lighter than an aluminum HD Handle
- Fastener free handle retention – interlocking throttle plate
- Corrosion resistant
- Static Shock resistant
- Priced at or below imports
- **Lifetime Warranty**

Fits all standard butterfly valves and is available in two sizes for your specific application.

All BTI products are guaranteed to:

LAST LONGER. WORK BETTER.
